

RCW 54.24.018 Acquisition of property—Adoption of plan—Bonds or warrants—Special funds. (1) Whenever the commission shall deem it advisable that the public utility district purchase, purchase and condemn, acquire, or construct any such public utility, or make any additions or betterments thereto, or extensions thereof, the commission shall provide therefor by resolution, which shall specify and adopt the system or plan proposed, and declare the estimated cost thereof, as near as may be, and specify whether general or utility indebtedness is to be incurred, the amount of such indebtedness, the amount of interest and the time in which all general bonds (if any) shall be paid, not to exceed thirty years. In the event the proposed general indebtedness to be incurred will bring the nonvoter approved indebtedness of the public utility district to an amount exceeding three-fourths of one percent of the value of the taxable property of the public utility district, as the term "value of the taxable property" is defined in RCW 39.36.015, the proposition of incurring such indebtedness and the proposed plan or system shall be submitted to the qualified electors of said public utility district for their approval or rejection at the next general election held in such public utility district. Elections shall be held as provided in RCW 39.36.050.

Whenever the commission (or a majority of the qualified voters of such public utility district, voting at said election, when it is necessary to submit the same to said voters) shall have adopted a system or plan for any such public utility, as aforesaid, and shall have authorized indebtedness therefor by a three-fifths vote of the qualified voters of such district, voting at said election, general or public utility bonds may be used as hereinafter provided. The principal and interest of such general bonds shall be paid from the revenue of such public utility district after deducting costs of maintenance, operation, and expenses of the public utility district, and any deficit in the payment of principal and interest of said general bonds shall be paid by levying each year a tax upon the taxable property within said district sufficient to pay said interest and principal of said bonds, which tax shall be due and collectible as any other tax. Said bonds shall be issued and sold in accordance with chapter 39.46 RCW.

(2) All bonds and warrants issued under the authority of this chapter shall be legal securities, which may be used by any bank or trust company for deposit with the state treasurer, or any county or city treasurer, as security for deposits, in lieu of a surety bond, under any law relating to deposits of public moneys.

(3) When the commission shall not desire to incur a general indebtedness in the purchase, condemnation and purchase, acquisition, or construction of any such public utility, or addition or betterment thereto, or extension thereof, it shall have the power to create a special fund or funds for the sole purpose of defraying the cost of such public utility, or addition or betterment thereto, or extension thereof, into which special fund or funds it may obligate and bind the district to set aside and pay a fixed proportion of the gross revenues of such public utility, or any fixed amount out of, and not exceeding a fixed proportion of, such revenues, or a fixed amount without regard to any fixed proportion, and to issue and sell revenue bonds or warrants bearing interest at such rate or rates, payable semiannually, executed in such manner, and payable at such times and places as the commission shall determine, but such bonds or warrants and the

interest thereon, shall be payable only out of such special fund or funds. In creating any such special fund or funds, the commission shall have due regard to the cost of operation and maintenance of the plant or system as constructed or added to, and to any proportion or part of the revenues previously pledged as a fund for the payment of bonds or warrants, and shall not set aside into such special fund or funds a greater amount or proportion of the revenues and proceeds than, in its judgment, will be available over and above such cost of maintenance and operation and the amount or proportion, if any, of the revenues so previously pledged. Any such bonds or warrants, and interest thereon, issued against any such fund, as herein provided, shall be a valid claim of the owner thereof only as against the said special fund and its fixed proportion or amount of the revenue pledged to such fund, and shall not constitute an indebtedness of such district within the meaning of the constitutional provisions and limitations. Each such bond or warrant shall state on its face that it is payable from a special fund, naming such fund and the resolution creating it. Said bonds and warrants shall be sold in such manner as the commission shall deem for the best interests of the district. The commission may provide in any contract for the construction and acquisition of a proposed improvement or utility that payment therefor shall be made only in such bonds or warrants at the par value thereof. In all other respects, the issuance of such utility bonds or warrants and payment therefor shall be governed by the public utility laws for cities and towns. The revenue or utility bonds or warrants may be in any form, including bearer bonds or bearer warrants, or registered bonds or registered warrants as provided in RCW 39.46.030.

(4) Notwithstanding subsection (3) of this section, any of such revenue bonds and revenue warrants may be issued and sold in accordance with chapter 39.46 RCW.
