

RCW 70A.214.050 Waste reduction techniques—Workshops and seminars. The office, in coordination with all other state waste reduction technical assistance programs, shall sponsor technical workshops and seminars on waste reduction techniques that have been successfully used to eliminate or reduce substantially the amount of waste or toxicity of hazardous waste generated, or that use in-process reclamation or reuse of spent material. [1988 c 177 § 5. Formerly RCW 70.95C.050.]
