

**RCW 70A.535.060 Adoption of rules—Harmonization with other states—Stakeholder advisory panel—Review of innovative technologies—Report requirements.** (1) Except where otherwise provided in this chapter, the department shall seek to adopt rules that are harmonized with the regulatory standards, exemptions, reporting obligations, and other clean fuels program compliance requirements and methods for credit generation of other states that:

(a) Have adopted low carbon fuel standards or similar greenhouse gas emissions requirements applicable specifically to transportation fuels; and

(b) (i) Supply, or have the potential to supply, significant quantities of transportation fuel to Washington markets; or

(ii) To which Washington supplies, or has the potential to supply, significant quantities of transportation fuel.

(2) The department must establish and periodically consult a stakeholder advisory panel, including representatives of forestland and agricultural landowners, for purposes of soliciting input on how to best incentivize and allot credits for the sequestration of greenhouse gases through activities on agricultural and forestlands in a manner that is consistent with the goals and requirements of this chapter.

(3) The department must conduct a biennial review of innovative technologies and pathways that reduce carbon and increase credit generation opportunities and must modify rules or guidance as needed to maintain stable credit markets.

(4) In any reports to the legislature under RCW 70A.535.090, on the department's website, or in other public documents or communications that refer to assumed public health benefits associated with the program created in this chapter, the department must distinguish between public health benefits from small particulate matter and other conventional pollutant reductions achieved primarily as a result of vehicle emission standards established under chapter 70A.30 RCW, and the incremental benefits to air pollution attributable to the program created under this chapter.
