

**RCW 77.135.150 Aquatic conveyance inspection and decontamination stations—Adoption of rules.** (1) The department may operate aquatic conveyance inspection and decontamination stations statewide for voluntary use by the public or for mandatory use where directed by the department to meet inspection and decontamination requirements of this chapter. Decontamination stations can be part of or separate from inspection stations. Inspection and decontamination stations are separate from commercial vehicle weigh stations operated by the Washington state patrol.

(2) Inspection station staff must inspect aquatic conveyances to determine whether the conveyances carry or contain aquatic invasive species. If an aquatic conveyance is free of aquatic invasive species, then inspection station staff must issue a certificate of inspection. A certificate of inspection is valid until the conveyance's next use in a water body.

(3) If a conveyance carries or contains aquatic invasive species, then inspection station staff must require the conveyance's decontamination before issuing a certificate of inspection. The certificate of inspection is valid until the conveyance's next use in a water body.

(4) The department must identify, in a way that is readily available to the public, the location and contact information for inspection and decontamination stations.

(5) The department must adopt by rule standards for inspection and decontamination that, where practical and appropriate, align with regional, national, and international standards. [2014 c 202 § 117.]

**Findings—2014 c 202:** See note following RCW 77.135.010.
