RCW 47.68.010 Statement of policy. It is hereby declared that the purpose of this chapter is to further the public interest and aeronautical progress by providing for the protection and promotion of safety in aeronautics; by cooperating in effecting uniformity of the laws and regulations relating to the development and regulation of aeronautics in the several states consistent with federal aeronautics laws and regulations; by granting to a state agency such powers and imposing upon it such duties that the state may properly perform its functions relative to aeronautics and effectively exercise its jurisdiction over persons and property within such jurisdiction, assist in the development of a statewide system of airports, cooperate with and assist the municipalities of this state and others engaged in aeronautics, and encourage and develop aeronautics; by establishing only such regulations as are essential in order that persons engaged in aeronautics of every character may so engage with the least possible restriction, consistent with the safety and the rights of others; and by providing for cooperation with the federal authorities in the development of a national system of civil aviation and for coordination of the aeronautical activities of those authorities and the authorities of this state. (ii) Any Indian tribe recognized as such by the federal government or such tribes acting jointly in the planning, acquisition, construction, improvement, maintenance, or operation of an airport, owned or controlled, or to be owned or controlled by such tribe or tribes, and to be held available for the general use of the public; or

(iii) Any person or persons acting jointly in the planning, acquisition, construction, improvement, maintenance, or operation of an airport, owned or controlled, or to be owned or controlled by such person or persons, and to be held available for the general use of the public.

(b) Such financial assistance may be furnished in connection with federal or other financial aid for the same purposes: PROVIDED, That no grant or loan, or both, shall be in excess of \$750,000 for any one project: PROVIDED FURTHER, That no grant or loan, or both, shall be granted unless the municipality or municipalities acting jointly, the tribe or tribes acting jointly, or the person or persons acting jointly shall from their own funds match any funds made available by the department upon such ratio as the department may prescribe.

(c) The requirements of (b) of this subsection do not apply for projects when directed to do so by the legislature during the 2023-2025 fiscal biennium in an omnibus transportation appropriations act.

(d) The department must establish, by rule, criteria for administering financial assistance to any entity.

Finding—2017 c 48: "The legislature finds that the Washington state department of transportation airport investment study identified total statewide airport preservation and capital needs and included a list of recommended changes. One of the recommendations is to increase the maximum amount authorized by the airport aid program per grant to airports. This change can help smaller airports use the state grant to match federal funding." [2017 c 48 s 1.]

Effective date—2009 c 470: See note following RCW 46.68.170.

Distributor of aircraft fuel defined: RCW 82.42.010.

For such purposes the department may by purchase, gift, devise, lease, condemnation, or otherwise, acquire property, real or personal, or any interest therein, including easements or land outside the boundaries of an airport or airport site, as are necessary to permit safe and efficient operation of the airports or to permit the removal, elimination, marking, or lighting of obstructions or airport hazards, or to prevent the establishment of airport hazards. In like manner the department may acquire existing airports and air navigation facilities. However, it shall not acquire or take over any airport or air navigation facility owned or controlled by a municipality of this or any other state without the consent of the municipality. The department may by sale, lease, or otherwise, dispose of any property, airport, air navigation facility, or portion thereof or interest therein. The department may grant the privilege of using or improving the airport or air navigation facility or any portion or facility thereof or space therein for commercial purposes, confer the privilege of supplying goods, commodities, things, services, or facilities at the airport or air navigation facility, or make available services to be furnished by the department or its agents at the airport or air navigation facility. In each case the department may establish the terms and conditions and fix the charges, rentals, or fees for the privileges or services, which shall be reasonable and uniform for the same class of privilege or service and shall be established with due regard to the property and improvements used and the cost of operation to the state. In no case shall the public be deprived of its rightful, equal, and uniform use of the airport, air navigation facility, or portion or facility thereof. [1984 c 7 s 348; 1947 c 165 s 13; Rem. Supp. 1947 s 10964-93. Formerly RCW 14.04.130.]

All federal moneys accepted under this section shall be accepted and expended by the department upon such terms and conditions as are prescribed by the United States. In accepting federal moneys under this section, the department shall have the same authority to enter into contracts on behalf of the state as is granted to the department under RCW 47.68.090 with respect to federal moneys accepted on behalf of municipalities. All moneys received by the department pursuant to this section shall be deposited in the state treasury, and, unless otherwise prescribed by the authority from which such moneys were received, shall be kept in separate funds designated according to the purposes for which the moneys were made available, and held by the state in trust for such purposes. It may chart the airways system and arrange for publication and distribution of such maps, charts, notices, and bulletins relating to the airways as may be required in the public interest. The system shall be supplementary to and coordinated in design and operation with the federal airways system. It may include all types of air navigation facilities, whether publicly or privately owned, if the facilities conform to federal safety standards. [1984 c 7 s 350; 1947 c 165 s 17; Rem. It shall be unlawful for any person to engage in aeronautics as an airman or airwoman in the state unless the person has an appropriate effective airman or airwoman certificate, permit, rating, or license issued by the United States authorizing him or her to engage in the particular class of aeronautics in which he or she is engaged, if such certificate, permit, rating, or license is required by the United States.

Where a certificate, permit, rating, or license is required for an airman or airwoman by the United States, it shall be kept in his or her personal possession when he or she is operating within the state. Where a certificate, permit, or license is required by the United States or by this chapter for an aircraft, it shall be carried in the aircraft at all times while the aircraft is operating in the state and shall be conspicuously posted in the aircraft where it may be readily seen by passengers or inspectors. RCW 47.68.240 Penalties for violations. (1) Except as provided in subsection (2) of this section, any person violating any of the provisions of this chapter, or any of the rules, regulations, or orders issued pursuant thereto, is guilty of a misdemeanor.

(2) (a) Any person violating any of the provisions of RCW 47.68.220, 47.68.230, or 47.68.255 is guilty of a gross misdemeanor.

(b) In addition to, or in lieu of, the penalties provided in this section, or as a condition to the suspension of a sentence which may be imposed pursuant thereto, for violations of RCW 47.68.220 and 47.68.230, the court in its discretion may prohibit the violator from operating an aircraft within the state for such period as it may determine but not to exceed one year. Violation of the duly imposed prohibition of the court may be treated as a separate offense under this section or as a contempt of court.

(3) In addition to the provisions of subsections (1) and (2) of this section, failure to register an aircraft, as required by this chapter is subject to a penalty of one hundred dollars if the aircraft registration is sixty days or more past due.

(4) The revenue from the penalty prescribed in subsection (3) of this section must be deposited into the aeronautics account under RCW 82.42.090. [2016 c 20 s 2; 2005 c 341 s 2. Findings—Intent—2016 c 20: "The legislature finds that the current penalty structure for late aircraft registration is unfair and excessive. The legislature further finds that the timing of providing proof of registration places a burden on aircraft owners attempting to lease or purchase hangar space for their aircraft. The legislature intends to streamline the penalty structure of late registrations and clarify the requirements for providing proof of registration in order

to reduce administrative processes and eliminate excessive penalty charges." [2016 c 20 s 1.]

RCW 47.68.250 Registration of aircraft. (Effective until July 1, 2031.) (1) Every aircraft, inclusive of commercial unpowered aircraft systems, must be registered with the department for each calendar year in which the aircraft is operated or is based within this state. A fee of fifteen dollars is charged for each such registration and each annual renewal thereof.

(2) The department must review the fee schedule based on the number of unpowered aircraft systems registered under any single entity. Consideration should be given to the cost to administer the program and the number of commercial aircraft registered in the state. The department shall collaborate with the department of commerce, the department of revenue, and industry representatives in determining any recommendations to revise the initial fee. The report is due to the transportation committees of the legislature by December 1, 2022.

(3) Possession of the appropriate effective federal certificate, permit, rating, or license relating to ownership and airworthiness of the aircraft, and payment of the excise tax imposed by Title 82 RCW for the privilege of using the aircraft within this state during the year for which the registration is sought, and payment of the registration fee required by this section are the only requisites for registration of an aircraft under this section.

(4) The registration fee imposed by this section is payable to and collected by the secretary. The fee for any calendar year must be paid during the month of January, and collected by the secretary at the time of the collection by him or her of the excise tax. If the secretary is satisfied that the requirements for registration of the aircraft have been met, he or she must issue to the owner of the aircraft a certificate of registration therefor. The secretary must pay to the state treasurer the registration fees collected under this section, which registration fees must be credited to the aeronautics account.

(5) It is not necessary for the registrant to provide the secretary with originals or copies of federal certificates, permits, ratings, or licenses. The secretary must issue certificates of registration, or such other evidences of registration or payment of fees as he or she may deem proper; and in connection therewith may prescribe requirements for the possession and exhibition of such certificates or other evidences.

(6) The provisions of this section do not apply to:

(a) An aircraft owned by and used exclusively in the service of any government or any political subdivision thereof, including the government of the United States, any state, territory, or possession of the United States, or the District of Columbia, which is not engaged in carrying persons or property for commercial purposes;

(b) An aircraft registered under the laws of a foreign country;

(c) An aircraft that is owned by a nonresident if:

(i) The aircraft remains in this state or is based in this state, or both, for a period less than ninety days; or

(ii) The aircraft is a large private airplane as defined in RCW 82.08.215 and remains in this state for a period of ninety days or longer, but only when:

(A) The airplane is in this state exclusively for the purpose of repairs, alterations, or reconstruction, including any flight testing related to the repairs, alterations, or reconstruction, or for the purpose of continual storage of not less than one full calendar year;

(B) An employee of the facility providing these services is on board the airplane during any flight testing; and

(C) Within ninety days of the date the airplane first arrived in this state during the calendar year, the nonresident files a written statement with the department indicating that the airplane is exempt from registration under this subsection (6)(c)(ii). The written statement must be filed in a form and manner prescribed by the department and must include such information as the department requires. The department may require additional periodic verification that the airplane remains exempt from registration under this subsection (6)(c)(ii) and that written statements conform with the provisions of chapter 5.50 RCW;

(d) A piloted aircraft engaged principally in commercial flying constituting an act of interstate or foreign commerce;

(e) An aircraft owned by the commercial manufacturer thereof while being operated for test or experimental purposes, or for the purpose of training crews for purchasers of the aircraft;

(f) An aircraft being held for sale, exchange, delivery, test, or demonstration purposes solely as stock in trade of an aircraft dealer licensed under Title 14 RCW;

(g) An aircraft based within the state that is in an unairworthy condition, is not operated within the registration period, and has obtained a written exemption issued by the secretary; and

(h) Unpiloted aircraft systems used exclusively for hobby or recreation.

(7) The secretary must be notified within thirty days of any change in ownership of a registered aircraft. The notification must contain the N, NC, NR, NL, or NX number of the aircraft, the full name and address of the former owner, and the full name and address of the new owner. For failure to so notify the secretary, the registration of that aircraft may be canceled by the secretary, subject to reinstatement upon application and payment of a reinstatement fee of ten dollars by the new owner.

(8) A municipality or port district that owns, operates, or leases an airport, as defined in RCW 47.68.020, with the intent to operate, must require from an aircraft owner proof of aircraft registration as a condition of leasing or selling tiedown or hangar space for an aircraft. It is the responsibility of the lessee or purchaser to register the aircraft. Proof of registration must be provided according to the following schedule:

(a) For the purchase of tiedown or hangar space, the municipality or port district must allow the purchaser thirty days from the date of the application for purchase to produce proof of aircraft registration.

(b) For the lease of tiedown or hangar space that extends thirty days or more, the municipality or port district must allow the lessee thirty days to produce proof of aircraft registration from the date of the application for lease of tiedown or hangar space.

(c) For the lease of tiedown or hangar space that extends less than thirty days, the municipality or port district must allow the lessee to produce proof of aircraft registration at any point prior to the final day of the lease.

(9) The airport must work with the aviation division to assist in its efforts to register aircraft by providing information about based aircraft on an annual basis as requested by the division.

(10) The department may adopt rules to implement this section. Findings—2021 c 175: "The legislature finds that providing additional funding mechanisms for public use airports that primarily support general aviation activities is in the best interest of the state. The legislature further finds it is in the best interest of the state to have a healthy and strong public use airport system for emergency response and enhanced economic opportunities. The legislature further finds that a revolving loan program would benefit smaller airport development while providing a self-sustaining resource." [2021 c 175 s 1.]

Effective date—2021 c 175: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect June 30, 2021." [2021 c 175 s 13.]

The board must adopt a code of ethics for its members, which must be designed to protect the state and its citizens from any unethical conduct by the board. [2021 c 175 s 3.]

RCW 47.68.460 Community aviation revitalization board—Loans—Applications—Guidelines. (1) The community aviation revitalization board may make direct loans to airport sponsors of public use airports in the state for the purpose of airport improvements that primarily support general aviation activities. The board may provide loans for the purpose of airport improvements only if the state is receiving commensurate public benefit, which must include, as a condition of the loan, a commitment to provide public access to the airport for a period of time equivalent to one and one-half times the term of the loan. For purposes of this subsection, "public use airports" means all public use airports not listed as having more than seventy-five

thousand annual commercial air service passenger enplanements as published by the federal aviation administration.

(2) An application for loan funds under this section must be made in the form and manner as the board may prescribe. When evaluating loan applications, the board must prioritize applications that provide conclusive justification that completion of the loan application project will create revenue generating opportunities. The board is not limited to, but must also use, the following expected outcome conditions when evaluating loan applications:

(a) A specific private development or expansion is ready to occur and will occur only if the aviation facility improvement is made;

(b) The loan application project results in the creation of jobs or private sector capital investment as determined by the board;

(c) The loan application project improves opportunities for the successful maintenance, operation, or expansion of an airport or adjacent airport business park;

(d) The loan application project results in the creation or retention of long-term economic opportunities; and

(e) The loan application project results in leveraging additional federal funding for an airport.

(3) (a) If the board chooses to require a local match, the board must develop guidelines for local participation and allowable match and activities.

(b) An application must:

(i) Be supported by the port district, city, or county in which the project is located; or

(ii) Clearly identify the source of funds intended to repay the loan. [2021 c 175 s 5.]

The total outstanding amount that the board must dispense at any time pursuant to this section must not exceed the moneys available from the account.

(2) On contracts made for public use general aviation airport loans, the board must determine the interest rate that loans must bear. The interest rate must not exceed the amount needed to cover the administrative expenses of the board and the loan program. The board may provide reasonable terms and conditions for the repayment of loans, with the repayment of a loan to begin no later than three years after the award date of the loan. The loans must not exceed twenty years in duration.

(3) The repayment of any loan made from the public use general aviation airport loan revolving account under the contracts for aviation loans must be paid into the public use general aviation airport loan revolving account.

(4) Loans issued to airport sponsors of nongovernmental airports must only be made from repaid loan funds deposited into the public use general aviation airport loan revolving account. [2021 c 175 s 6.]
