Finding—Intent—2016 c 157: "(1) The legislature finds that schools are places of academic as well as personal enrichment and that schools provide safety, stability, support, and relationships necessary to help students succeed. These resources are vitally necessary for tens of thousands of students in Washington with no permanent home who often struggle in school because they are worried about where their families are staying night after night.

(2) The legislature also recognizes the population of homeless students disproportionately includes students of color.

(3) The intent of the legislature is to start a competitive grant system for high-need school districts and to supplement federal McKinney-Vento Act dollars to ensure homeless students continue attending the same schools, maintain housing stability, and improve academic achievement." [2016 c 157 s 1.]

Short title—2016 c 157: "This act may be known and cited as the homeless student stability and opportunity gap act." [2016 c 157 s 8.]

Short title—2015 c 69: See RCW 43.330.911.

Findings—Intent—2014 c 212: "The legislature finds that since the 2005-06 school year, the number of homeless students identified in the K-12 public school system has been increasing. The legislature further finds that there are additional homeless students who are not identified by schools. The legislature intends to improve educational outcomes for homeless children by strengthening the ability of school districts to identify homeless students, establishing data reporting requirements, and distributing best practices and information regarding services and support for homeless students."
