Findings—Intent—2004 c 255: "The legislature finds that recent increases in property and liability insurance premiums experienced by some nonprofit organizations have the potential to negatively impact the ability of these organizations to continue to offer the level of service they provide in our communities. The legislature finds that nonprofit organizations are distinct from private for-profit businesses. By their very nature, nonprofit organizations are formed for purposes other than generating a profit, and are restricted from distributing any part of the organization's income to its directors or

officers. Because of these characteristics, nonprofit organizations provide a unique public good to the residents in our state.

The legislature finds that in order to sustain the financial viability of nonprofit organizations, they should be provided with alternative options for insuring against risks. The legislature further finds that local government entities and nonprofit organizations share the common goal of providing services beneficial to the public interest. The legislature finds that allowing nonprofit organizations and local government entities to pool risk in self-insurance risk pools may be of mutual benefit for both types of entities. Therefore, it is the intent of the legislature to allow nonprofit organizations to form or participate in self-insurance risk pools with other nonprofit organizations or with local government entities where authority for such risk pooling arrangements does not currently exist in state or federal law."
