

RCW 70A.320.010 Findings. The legislature finds that state and local agencies are currently implementing actions to reduce children's exposure to soils that contain hazardous substances. The legislature further finds that it is in the public interest to enhance those efforts in western Washington in areas located within the central Puget Sound smelter plume. [2005 c 306 s 1. Formerly RCW 70.140.010.]
