

**RCW 72.09.370 Reentry community services program—Plan for postrelease treatment and support services—Rules.** (1) The reentry community services program is established to provide intensive services to persons identified under this subsection and to thereby promote successful reentry, public safety, and recovery. The secretary shall identify persons in confinement or partial confinement who: (a) Are reasonably believed to present a danger to themselves or others if released to the community without supportive services; and (b) have a mental disorder. In evaluating these criteria, the secretary shall consider behavior known to the department and factors, based on research, that are linked to risk of dangerousness for persons with mental illnesses within the criminal justice system and shall include consideration of the person's history of substance use disorder or abuse.

(2) Prior to release of a person identified under this section, a team consisting of representatives of the department of corrections, the health care authority, and, as necessary, the indeterminate sentence review board, divisions or administrations within the department of social and health services, specifically including the division of developmental disabilities, the appropriate managed care organization or behavioral health administrative services organization, and reentry community services providers, as appropriate, shall develop a plan, as determined necessary by the team, for delivery of treatment and support services to the person upon release. In developing the plan, the person shall be offered assistance in executing a mental health advance directive under chapter 71.32 RCW, after being fully informed of the benefits, scope, and purposes of such directive. The team may include a school district representative for persons under the age of 21. The team shall consult with the person's counsel, if any, and, as appropriate, the person's family and community. The team shall notify the crime victim/witness program, which shall provide notice to all people registered to receive notice under RCW 72.09.712 of the proposed release plan developed by the team. Victims, witnesses, and other interested people notified by the department may provide information and comments to the department on potential safety risk to specific individuals or classes of individuals posed by the specific person. The team may recommend: (a) That the person be evaluated by a designated crisis responder, as defined in chapter 71.05 RCW; (b) department-supervised community treatment; or (c) voluntary community mental health or substance use disorder or abuse treatment.

(3) Prior to release of a person identified under this section, the team shall determine whether or not an evaluation by a designated crisis responder is needed. If an evaluation is recommended, the supporting documentation shall be immediately forwarded to the appropriate designated crisis responder. The supporting documentation shall include the person's criminal history, history of judicially required or administratively ordered involuntary antipsychotic medication while in confinement, and any known history of involuntary civil commitment.

(4) If an evaluation by a designated crisis responder is recommended by the team, such evaluation shall occur not more than ten days, nor less than five days, prior to release.

(5) A second evaluation by a designated crisis responder shall occur on the day of release if requested by the team, based upon new information or a change in the person's mental condition, and the

initial evaluation did not result in an emergency detention or a summons under chapter 71.05 RCW.

(6) If the designated crisis responder determines an emergency detention under chapter 71.05 RCW is necessary, the department shall release the person only to a state hospital or to a consenting evaluation and treatment facility or secure withdrawal management and stabilization facility. The department shall arrange transportation of the person to the hospital or facility.

(7) If the designated crisis responder believes that a less restrictive alternative treatment is appropriate, he or she shall seek a summons, pursuant to the provisions of chapter 71.05 RCW, to require the person to appear at an evaluation and treatment facility or secure withdrawal management and stabilization facility. If a summons is issued, the person shall remain within the corrections facility until completion of his or her term of confinement and be transported, by corrections personnel on the day of completion, directly to the identified facility.

(8) The secretary shall adopt rules to implement this section. [2021 c 243 s 6; 2019 c 325 s 5025; 2018 c 201 s 9012; 2016 sp.s. c 29 s 427; 2014 c 225 s 95. Prior: 2009 c 319 s 3; 2009 c 28 s 36; 2001 2nd sp.s. c 12 s 362; 1999 c 214 s 2.]
