

**RCW 79A.25.080 Recreation resource account—Distribution of moneys transferred.** (1) Moneys transferred to the recreation resource account from the marine fuel tax refund account may be used when appropriated by the legislature, as well as any federal or other funds now or hereafter available, to pay the office and necessary administrative and coordinative costs of the recreation and conservation funding board established by RCW 79A.25.110. All moneys so transferred, except those appropriated as aforesaid, shall be divided into two equal shares and shall be used to benefit watercraft recreation in this state as follows:

(a) One share as grants to state agencies for (i) acquisition of title to, or any interests or rights in, marine recreation land, (ii) capital improvement and renovation of marine recreation land, including periodic dredging in accordance with subsection (2) of this section, if needed, to maintain or make the facility more useful, or (iii) matching funds in any case where federal or other funds are made available on a matching basis for purposes described in (a)(i) or (ii) of this subsection;

(b) One share as grants to public bodies to help finance (i) acquisition of title to, or any interests or rights in, marine recreation land, or (ii) capital improvement and renovation of marine recreation land, including periodic dredging in accordance with subsection (2) of this section, if needed, to maintain or make the facility more useful. A public body is authorized to use a grant, together with its own contribution, as matching funds in any case where federal or other funds are made available for purposes described in (a)(i) or (ii) of this subsection. The board may prescribe further terms and conditions for the making of grants in order to carry out the purposes of this chapter.

(2) For the purposes of this section "periodic dredging" is limited to dredging of materials that have been deposited in a channel due to unforeseen events. This dredging should extend the expected usefulness of the facility for at least five years.

(3) During the 2009-2011 fiscal biennium, the legislature may appropriate such amounts as reflect the excess fund balance in the recreation resource account to the state parks and recreation commission for maintenance and operation of parks and to improve accessibility for boaters and off-road vehicle users. This appropriation is not required to follow the specific distribution specified in subsection (1)(a) and (b) of this section.
