- WAC 173-900-305 The standard plan. A manufacturer must participate in the standard plan administered by the authority unless the manufacturer has approval to participate in an ecology approved independent plan.
- (1) The authority is responsible for collecting, transporting, processing, and recycling the sum of the equivalent shares of all man-
- ufacturers participating in the standard plan.
  (2) The "authority" is the Washington materials management and financing authority and is authorized to submit the standard plan for the participating manufacturers.
