WAC 296-307-70445 Make sure the incident commander oversees activities during the response. The employer of the incident commander (IC) must:

- (1) Identify all hazardous substances and conditions present, within their training level, using site analysis and maximum exposure limits, when appropriate.
- (2) Implement emergency response procedures appropriate to the hazardous substances and conditions present, such as:
- Procedures that address the use of engineering controls, hazardous substance handling, and new technologies
 - Procedures that address decontamination
 - Procedures that address PPE
- Procedures that limit the number of personnel to those who are actively performing emergency response operations, in areas where exposure could exist.
 - (3) Designate an incident safety officer (ISO).
- Make sure the ISO demonstrates knowledge about operations being implemented at the emergency response site. They must:
 - Identify and evaluate hazards
- Communicate with the IC about hazards, immediately informing the IC of corrective actions that must be taken when conditions are judged to be:
 - An imminent danger

OR

- Immediately dangerous to life or health (IDLH).
- Provide direction about the safety of operations.
