

WAC 230-16-175 Placing I.D. stamps and records entry labels.

Manufacturers must attach I.D. stamps and records entry labels to approved gambling equipment in the following way:

(1) **Punch boards** - On the reverse side of the board in an area that will not obstruct removal of punches. If sufficient space is not available on the reverse side, licensees may wrap the records entry labels around or partially attach them to the edge of the punch board as long as this does not obstruct display of prizes available or other information we require.

(2) **Pull tabs** - On the face or reverse side of the flare. If placed on the face, the I.D. stamps and records entry labels must not obstruct prizes available or other information we require.
