- WAC 296-150M-0540 How do I obtain a fire safety certificate to site my pre-HUD home? In order to install a pre-HUD home in Washington, you will need to obtain and pass an inspection by the department. To apply for a fire safety certificate, you must:
- (1) Complete an alteration permit form and a fire safety certificate application. We will provide you the forms on request.
- (2) A fire safety preinspection checklist can be obtained at your local labor and industries office or on the web at http://www.lni.wa.gov/tradeslicensing/fas.
- (3) Submit the completed forms to the department, with the inspection fee and the site placement form. (See WAC 296-150M-3000, Manufactured/mobile home fees.)
- (4) Any other alterations to the home that have not been previously inspected and approved by the department will cause the approval of this inspection to be denied. A permit and inspection will need to be completed for these alterations before approval of the fire safety certificate is issued.
- (5) Once we approve the inspection, we will provide you with a completed alteration permit and fire safety certificate.

Note: After the home has been sited, any subsequent move will require a separate fire safety certificate. RCW 46.44.170.
