- WAC 296-307-35012 Operation and maintenance requirements for exit routes. The employer must ensure that each workplace meets the following requirements:
- (1) The workplace exit route is maintained to minimize danger to employees during an emergency.
- (a) The workplace exit route is free of explosive or highly flam-mable furnishings or decorations.
- (b) Accumulations of flammable or combustible waste materials are controlled.
- (c) An exit route does not require employees to travel toward materials that burn very quickly, emit poisonous fumes, or are explosive, unless those materials are effectively shielded from the exit route.
  - (2) Each exit route is adequately lit.
- (3) Each exit is clearly visible and is marked by a distinctive sign reading "exit."
- (a) An exit door is free of signs or decorations that obscure its visibility.
- (b) Signs are posted along the exit route indicating the direction of travel to the nearest exit.
  - (c) The line-of-sight to an exit sign is uninterrupted.
- (d) Any doorway or passage that might be mistaken for an exit is marked "not an exit" or with an indication of its actual use.
- (e) An exit sign is illuminated to a surface value of at least 5 foot candles by a reliable light source and shows a designated color. Self-luminous or electroluminescent signs have a minimum luminance surface value of .06 footlamberts.
- (4) Fire retardant paints or other coatings used in the workplace are maintained.
- (5) Each safeguard to protect employees during an emergency is maintained in proper working order.
- (6) Employees do not occupy a workplace under construction until an exit route that meets these requirements is available for the portion of the workplace to be occupied.
- (a) Employees do not occupy a workplace during repair or alteration unless either all exits and existing fire protection are maintained or alternate fire protection is provided that ensures an equivalent level of safety.
- (b) Flammable or explosive materials used during construction or repair do not expose employees to hazards not otherwise present in the workplace or impede emergency escape from the workplace.
- (7) An operable employee alarm system with a distinctive signal to warn employees of fire or other emergencies is installed and maintained. No employee alarm system is required if employees can see or smell a fire or other hazard so that it would provide adequate warning to them. The employee alarm system complies with the requirements of WAC 296-307-345.
