- WAC 296-806-42584 Follow these requirements for sugar and spice pulverizers. (1) You must remove static electricity by grounding all drive belts used in sugar and spice pulverizers by using metal combs.
- (2) You must follow the National Fire Protection Association (NFPA) 61-1999, standard for pulverizing sugar and spice grinding in order to prevent fires and dust explosions in agricultural and food products facilities.
- (3) You must provide magnetic separators to reduce fire and explosion hazards.
