

- WAC 296-855-20090 Training.** (1) You must train employees who are potentially exposed above the:
- (a) Action level (AL) 0.5 parts per million (ppm); or
 - (b) Fifteen-minute short-term exposure limit (STEL) of five ppm.
- (2) You must provide training:
- (a) At the time of initial assignment; and
 - (b) Then at least every twelve months.
- (3) You must make sure training and information includes all of the following:
- (a) The requirements of this chapter.
 - (b) The location and availability of this chapter.
 - (c) The purpose of medical evaluations and a description of your medical evaluation program required in Medical evaluations, WAC 296-855-30030 in this chapter.
 - (d) Monitoring procedures and observations to detect the presence or release of EtO.
 - (e) The physical and health hazards of EtO.
 - (f) Actions employees can take to protect themselves from EtO exposure such as work practices, emergency procedures, and PPE.
 - (g) The details of your hazard communication program required by another chapter, Hazard communication, chapter 296-901 WAC.
 - (h) Operations in employee work areas where EtO is present.
 - (i) The following information found in the General occupational health standards, chapter 296-62 WAC:
 - (i) The Substance safety data sheet, WAC 296-62-07383 Appendix A.
 - (ii) The Substance technical guidelines, WAC 296-62-07385 Appendix B.
 - (iii) Medical surveillance guidelines, WAC 296-62-07387 Appendix C.
