- WAC 16-301-580 Diseased crucifer seeds and infected fields—Regulations. (1) When the director determines that a field is infected with a regulated pathogen and threatens to infect other fields, the director may issue a notice of destruction prescribing control measures or other requirements needed to prevent the infection of adjacent properties.
- (2) Unless the crop is within two weeks of harvest, any crucifer crop within a regulated area that is infected with a regulated pathogen may be subject to immediate destruction, in part or in total. The owner is responsible for the expenses incurred to destroy a diseased crucifer crop.
- (3) The following requirements apply to crops that are within two weeks of harvest:
- (a) Residues must be destroyed or incorporated into the ground immediately after harvest;
- (b) Harvested seed must be isolated from other seed lots until it is treated with an approved treatment method;
- (c) Harvest equipment must be steam cleaned before entering any other fields; and
- (d) WSDA personnel in consultation with WSU extension personnel must monitor these postharvest activities.
