- WAC 16-610-125 Public livestock market livestock inspection facilities. The director must approve all livestock inspection facilities at public livestock markets. For the director's approval, inspection facilities must:
- (1) Include a chute that is constructed according to the following specifications:
- (a) Constructed with a solid base on each side of sufficient strength to contain cattle and horses. The base must be at least twenty-four but not more than thirty-six inches in height.
- (b) Above the base on each side, the chute must have wire cables extended along its entire length. The cables must be separated by sixinch intervals and must extend vertically to a height of at least six feet.
- (c) The cables must be attached every sixteen feet to a vertical post that is alternated with a pipe or stay every eight feet to provide support and to keep the cables tight.
- (d) The chute must be well lit by shop, spot, or floodlights. These lights must be located on both sides of the chute at a height of five feet above the highest cable. Beginning at the head of the chute, this lighting must extend along three-fourths of the length of the chute.
- (2) Electrical outlets must be available at all chutes so clippers can be conveniently used.
- (3) Inspection areas must be well covered by adequate roofing and kept free of any water leaks or water build-up of any kind.
- (4) Inspection areas must incorporate a work area for livestock inspectors on each side of the chute. The work area must:
- (a) Provide an inspector with at least thirty inches of workspace along the entire length of the chute; and
- (b) Be enclosed by fencing or some other permanent structure that protects inspectors while cattle and horses are unloaded and moved along the chute.
 - (5) Inspection areas must include an office. The office must:
- (a) Be constructed according to dimensions of at least eight feet by ten feet;
 - (b) Contain adequate heating; and
- (c) Be equipped with a counter built at a standing work level height and with a width of approximately eighteen inches.
- (6) The licensee shall provide sufficient indoor office space as needed in order for the director to process and distribute inspection documents to the buyer.
