**WAC 246-492-001 Vital statistics data release—Purpose and scope.** Vital records data is used by government agencies, tribes, researchers, private entities, media organizations, and individuals for assessment, public health surveillance, and epidemiological study. The rules in this chapter provide the requirements for requesting vital records data from the department.

(1) The rules establish the following:

(a) Application submission requirements;

(b) Process for agency to approve or deny requests;

(c) Direct and indirect identifiers for birth and fetal death records; and

(d) Fees for data files, analysis, and data requests.

(2) The rules in this chapter do not address the process to request certificates or informational copies of vital records, which has been promulgated in chapter 246-491 WAC.

(3) "Data" means a data file containing multiple records.

(4) "Department" means the department of health.

(5) "Direct identifier" means a single data element that identifies an individual person.

(6) "Fetal death" means any product of conception that shows no evidence of life, such as breathing, beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles after complete expulsion or extraction from the individual who gave birth that is not an induced termination of pregnancy and:

(a) Has completed twenty or more weeks of gestation as calculated from the date the last menstrual period of the individual who gave birth began, to the date of expulsion or extraction; or

(b) Weighs three hundred fifty grams or more, if weeks of gestation are not known.

(7) "General data inquiry request" means a request for information that can be answered with use of vital records data, but without the need for extensive investigation, analysis, report building or data file production.

(8) "Government agencies" includes state boards, commissions, committees, departments, educational institutions, or other state agencies which are created by or pursuant to statute, other than courts and the legislature; county or city agencies, United States federal agencies, and federally recognized tribes and tribal organizations.

(9) "Human research review board" is a standing institutional review board operating under chapter 42.48 RCW.

(10) "Indirect identifier" means a single data element that on its own does not identify an individual person, but when combined with other indirect identifiers can be used to identify an individual person.

(11) "Individual" means a natural person.

Public health purpose does not include research as defined in this section.

(14) "Research" means a systematic investigation, including research development, testing, and evaluation, designed to develop or contribute to generalizable knowledge. Activities that meet this definition constitute research for purposes of this policy, whether or not they are conducted or supported under a program that is considered research for other purposes.

(5) The department may release data files linked with birth or fetal death record items. When data files are released by the department in a form or format that is linked with birth or fetal death data, the linked data will be treated with the same restrictions as the most restrictive record item in the linked birth and fetal death data files.

(6) The department may calculate additional data items from the birth or fetal death record items listed in subsections (3) and (4) of this section. These calculated data items shall maintain the same direct or indirect identifier categorization as the most restrictive record items listed in subsections (3) and (4) of this section from which the department derived the additional calculated data.
