WAC 480-30-341 Tariffs and time schedules, title pages. (1) Tariff. The title page of every auto transportation tariff filed with the commission must show at least the following:

(a) The certificate name of the auto transportation company, its certificate number, and all trade names filed with the commission to which the tariff applies.

(b) An identifying tariff number.

(c) The number of any tariff being canceled by the tariff to which the title page applies (canceling a tariff also cancels all supplements applying to that tariff).

(d) The types of services covered by the tariff. For example: "Rates for passenger service" or "rates and time schedule for passenger service."

(e) A clear description of the territory and routes to which the tariff applies;

(f) The date the tariff is issued and the date it becomes effective;

(g) The name, title, telephone number, fax number (if any), email address (if any), and mailing address of the person who files the tariff; and

(h) A box that is at least three-fourths of one inch in height, spans from margin to margin, and is labeled "for official use only."

(2) **Time schedule.** If the time schedule is filed as a separate document, not part of the auto transportation company's tariff, the title page of a time schedule must include the same information as is required in subsection (1)(a) through (h) of this section. If the time schedule is filed as a section or part of an auto transportation company's tariff, no separate title page is required.
