

**WAC 16-89-150 Brucellosis testing for sheep and goat dairies.**

(1) All sheep and goats whose raw milk or raw milk products are offered for sale must be from a flock or herd that is negative to a serological test for brucellosis within the previous twelve months. Any additions to the flock or herd must be tested negative for brucellosis within thirty days before introduction into the flock or herd.

(2) All raw milk and raw milk products from animals that test positive for brucellosis are prohibited from sale and must be destroyed.

(3) All sheep and goats whose raw milk or raw milk products are offered for sale must have official identification.

[Statutory Authority: RCW 16.36.040 and chapter 34.05 RCW. WSR 08-13-100, § 16-89-150, filed 6/18/08, effective 7/19/08.]
