

WAC 16-301-395 General requirements for planting bean seed in the regulated area. (1) No beans may be planted, sold, shipped, transported for seed purposes, or knowingly received in the regulated area which are found to be or are known to be contaminated with any disease listed in WAC 16-301-380 and must also comply with the requirements as listed in WAC 16-301-396.

(2) For all bean seed to be planted in the regulated area, proof of quarantine compliance must accompany any application for phytosanitary or certification field inspection. A copy of the field inspection report or other proof of freedom from specified diseases based on at least one growing season field inspection and one windrow inspection or negative results from an approved pathology laboratory indicating freedom from the regulated diseases and a copy of the appropriate seed health assay showing freedom from regulated viral diseases issued for that bean seed must accompany these applications. Proof of I-gene resistance may be provided in lieu of appropriate seed health assay indicating freedom from regulated viral diseases.
