WAC 16-662-145 Posting of motor fuel prices—Cash and credit sales. The following rules apply to the posting of prices of retail sales of motor fuels. As used herein, motor fuel means any fuel used in motor vehicles including, but not limited to, gasoline, diesel, propane, and alcohol-gasoline blends. As used herein, motor vehicles shall include all wheeled motorized vehicles, and all boats and airplanes.

(1) The posted or advertised price of motor fuel at retail outlets must be available to all consumers. Any condition or qualification required to obtain the posted price must be clearly displayed in letters of contrasting color at least one-third the size of the posted price and immediately adjacent thereto.

(2) The posted or advertised grade of fuel must be clearly displayed in letters of contrasting color at least one-sixth the size of the posted price and immediately adjacent thereto.

(3) A cash price may be posted or advertised if the posting of the price clearly shows it to be limited to cash purchases. The information shall be in letters at least one-third the size of the posted price and immediately adjacent thereto.

(4) If mixed case letters are used to display the grade of the fuel and any condition or qualification, the size requirements of the letters apply to the upper case letters and any lower case letters must be in proportionate scale.

(5) Cash and credit sales. If a retailer elects to establish separate islands or individual dispensers for cash and credit sales, the islands or dispensers shall be clearly marked as such in letters at least six inches in height and of proportional width.

WAC 16-662-160 Definitions for civil penalties and enforcement—Motor fuel quality. The following definitions apply to WAC 16-662-165 and 16-662-170:

"Violation" means commission of an act or acts prohibited by chapter 19.112 RCW, Motor Fuel Quality Act, and this chapter or the failure to act in compliance with the requirements of chapter 19.112 RCW and this chapter. Violations include the following: Marketing motor fuels in any manner that may deceive or tend to deceive the purchaser as to the nature, price, quantity and quality of a motor fuel; hindering or obstructing the director or the director's authorized agent in the performance of their duties; marketing a motor fuel that is contrary to the provisions of chapter 19.112 RCW and the regulations adopted under the authority of the Motor Fuel Quality Act.

"First violation" means an act or omission unlawful under RCW 19.112.050 that has resulted in a notice of violation or a notice of correction.

"Second violation" means one same or similar violation as a first violation that occurs within two years of the first violation.

"Third violation" means one same or similar violation as a second violation that occurs within two years of the second violation.

"Fourth violation" means one same or similar violation as a third violation that occurs within two years of the third violation.

"Subsequent violation" means one same or similar violation as a fourth violation that occurs within two years of the fourth or any subsequent violation.

"Similar violation" means a violation of a comparable but not identical standard or requirement. For example: A violation of an ASTM fuel standard would be a violation similar to a violation of a differ-

ent ASTM fuel standard. A violation of an ASTM fuel standard would not be similar to a violation of fuel pricing violation. When determining the level of violation, prior incidents will be based on the date that a final order or stipulated order resolved the prior violation and not from the date that the incident occurred.

"Notice of correction" means a document issued by the department in accordance with RCW 43.05.100. A notice of correction will identify any condition that is a violation. Any violation identified in a notice of correction is a violation even though that violation is not subject to a civil penalty when the notice of correction is issued.

"Notice of intent" means a document issued by the department in accordance with RCW 43.05.110. A notice of intent assesses a civil penalty under RCW 19.112.060 (1)(b) for violations of chapter 19.112 RCW as provided under WAC 16-662-165 and 16-662-170.

[Statutory Authority: RCW 19.94.190, 19.94.195, 19.112.020, 19.112.140, and chapter 34.05 RCW. WSR 16-19-093, § 16-662-160, filed 9/21/16, effective 10/22/16.]

WAC 16-662-165 Civil penalties and enforcement—Motor fuel quality. (1) Enforcement actions and civil penalties will be assessed as described below. The department considers each violation to be a separate and distinct occurrence.

(a) Penalties for ASTM specifications violations include a gasoline or diesel sample not meeting one or more ASTM quality specifications as indicated by the department's contract laboratory certificate of analysis. The applicable standards include: D4814 gasoline and gasoline - oxygenate blends, ASTM D7467 biodiesel blends greater than five percent and equal to or less than twenty percent, ASTM 6751 B100 and D975 diesel and biodiesel blends equal to or less than five percent, gasoline - ethanol blends exceeding legal limits, ASTM D5798 ethanol flex fuel, also referred to as E85 fuel ethanol or E85 motor fuel.

WAC 16-662-170 Civil penalties and enforcement—Aggravating and mitigating factors. (1) As provided under RCW 19.112.060 (1)(b), the department has discretion to determine the civil penalty based on circumstances such as the gravity of violations and the history of violations. Criteria for determining whether and how to adjust the civil penalties specified in WAC 16-662-165 are considered aggravating and mitigating factors.

(2) When assessing a penalty using aggravating or mitigating factors, the department will provide a written summary to include the base penalty amount provided in the civil penalty section and any aggravating and/or mitigating factors it considered when arriving at a final civil penalty amount that differs from the base penalty amount.

(3) The department may increase a civil penalty based on the penalties found in WAC 16-662-165 because of aggravating factors including, but not limited to, the following:

(a) Situations where the civil penalty assessed is not substantially equivalent to the violator's economic benefit derived from the violation.

(b) The number of separate violations contained within a single notice of intent.

(c) The magnitude of the harm or potential harm caused by the violation, including the degree of harm to any affected vehicles, property, people, or to the environment.

(d) The sameness or similarity of the current violation to previous violations committed within the previous two years.

(e) The extent to which the violation is part of a pattern of the same or substantially similar violations including violations at other locations operated by the same business or person.

(f) The department may assess up to the maximum penalty of ten thousand dollars as authorized under RCW 19.112.060 (1)(b) when the department determines one or more aggravating factors are associated with violations presenting grave risks to persons, property, or the environment or that represent a pattern of repeated violations presenting moderate risks to persons, property, or the environment.

(4) The department may reduce a civil penalty based on the civil penalty identified in WAC 16-662-165 because of mitigating factors including, but not limited to, the following:

(a) Voluntary disclosure of a violation.

(b) Promptly taking voluntary corrective actions to stop further harm and/or minimize the likelihood that the violation will be repeated.

(c) Promptly making appropriate restitution to any identified customers who were affected or may have been affected by the violation.

(d) Proof that the violations occurred due to structural failures or unintentional errors on the part of the business owner or operator when such failures or errors were outside the control or responsibility of the owner or operator. However, the owner or operator is responsible for the quality of fuel offered for sale at that location.

WAC 16-662-175 Other actions not precluded. When appropriate, the department may decide: Not to pursue a civil penalty; to issue a notice of correction in lieu of pursuing a civil penalty or issuing a stop sale order; to negotiate settlements of cases; and to refer violations or alleged violations to any federal, state, or county authority with jurisdiction.
