

WAC 182-551-1000 Hospice program—General. A hospice interdisciplinary team communicates with the client's nonhospice care providers to ensure the client's needs are met through the hospice plan of care. Hospitalization is used only for acute symptom management.

(3) Hospice care is provided in a client's temporary or permanent place of residence.

(4) Hospice care ends when:

(a) The client or an authorized representative under RCW 7.70.065 revokes the hospice care;

(b) The hospice agency discharges the client;

(c) The client's physician determines hospice care is no longer appropriate; or

(d) The client dies.

(5) Hospice care includes the provision of emotional and spiritual comfort and bereavement support to the client's family member(s).
