- WAC 246-224-0010 Definitions, abbreviations, and acronyms. The definitions, abbreviations, and acronyms in this section and in WAC 246-220-010 apply throughout this chapter unless the context clearly indicates otherwise.
- (1) "Agent" means a person, company, or dealer that sells, leases, transfers, lends, disposes of, assembles, repairs, replaces, or installs radiation machines or components in Washington state.
- (2) "Application" means, for the purpose of this chapter, the business license application or business license renewal application and appropriate addenda used by the BLS of the department of revenue.
- (3) "BLS" means the department of revenue's business licensing service.
  - (4) "Department" means the department of health.
  - (5) "FDA" means the United States Food and Drug Administration.
- (6) "Radiation" means, for the purposes of this chapter, ionizing radiation, including X-ray, electron beam, and other machine produced particulate radiation.
- (7) "Radiation machine facility" means each separate building, structure, and operation or buildings, structures, and operations designated by one physical address that connect through a walkway or share a common wall, where there is at least one radiation machine installed, manufactured, tested, or used. A vehicle that has one or more radiation machines installed, manufactured, tested, or used is considered a radiation machine facility.
- (8) "Registrant" means the owner or controller of the radiation machine who is responsible for the safe operation of the radiation machine.
- (9) "Storage" means the status of a radiation machine that is approved by the department as being unable to produce radiation without substantial effort at set-up, reassembly, or reinstallation. A radiation machine is considered in storage if a registrant locks out or disables the radiation machine.
- (10) "X-ray system" means an assemblage of components for the controlled production of X-rays. It includes minimally an X-ray high-voltage generator, an X-ray control, a tube housing assembly, a beamlimiting device, and the necessary supporting structures. Additional components which function with the X-ray system are considered integral parts of the system.
