- WAC 296-150C-1070 Floor closure material. The closure material must meet ASTM D-781 standard or equal and be installed as follows:
- (1) Fibrous material (with or without patches) must meet or exceed the level of 48 inch-pounds of puncture resistance as tested.
- (2) The material must be installed according to installation instructions furnished by the supplier of the material.
- (3) Patching material must be suitable for patches and the patch life must be equivalent to the material life.
- (4) Floor closure material around piping, ducts, plenums, or vents must prevent damage to the underside of the commercial coach due to air, water, insects, dust, and must be rodent resistant.
