- WAC 296-828-20005 Chemical hygiene plan. (1) You must develop and carry out a written chemical hygiene plan (CHP) that will protect your employees from hazardous substances in the laboratory and keep exposure levels below those listed in chapter 296-841 WAC, Airborne contaminants.
- (2) You must make sure the written plan is readily available to employees and their representatives.
 - (3) You must include the following elements in your written CHP:
- (a) The names or job titles of the chemical hygiene officer, other personnel responsible for implementing the CHP, or when appropriate, the members of a chemical hygiene committee.
- (b) Standard operating procedures that provide employee protection when working with hazardous substances.
- (c) Criteria for how you will select and use control measures to reduce employee exposures to hazardous chemicals, especially chemicals known to be extremely hazardous.
- (d) Additional employee protection for select carcinogens, reproductive toxins, and chemicals with high degree of acute toxicity. The following will be considered, when appropriate:
 - (i) The establishment of exposure control areas.
 - (ii) Containment devices, such as fume hoods or glove boxes.
 - (iii) The safe removal of contaminated waste.
 - (iv) Procedures for decontamination.
- (e) Specific measures to make sure fume hoods and other protective equipment provide proper and adequate performance and are properly functioning.
- (f) The circumstances when specific laboratory operation, activity, or procedure requires prior approval from the employer or their designated representative before implementation.
- (g) A description of how you are going to train and inform your employees about laboratory use of hazardous chemicals.
- (h) A description of your provisions for medical consultations and medical examinations.
- (4) You must review and evaluate the effectiveness of your written CHP at least annually and update as necessary.
