

WAC 173-180-810 Type of drills. (1) The oil transfer response plan must describe the drill program over a triennial cycle.

(a) If the program differs from the National Preparedness for Response Exercise Program (PREP) Guidelines, the plan must include information regarding each type of drill as described in the table below.

(b) If the PREP Guidelines are followed, the table below may be inserted into the plan.

(2) Credit for a spill may be used to replace the requirement to conduct a drill.

Type of Drill	Frequency Within the Triennial Cycle	Scope and Scale
Qualified individual (QI) notification	12 – Quarterly each year of the cycle	Notify QI and alternate QI(s).
Tabletop drills	3 – One in each year of the cycle	This is a tabletop drill. One of the three must involve a worst case scenario.
Deployment drills	6 – Done two per year	Over the triennial cycle, this drill may include deployment of PRC and facility owned equipment. Drill credit may be given for prebooming an oil transfer.
Ecology initiated unannounced drills	As necessary	This drill may include notifications described in the oil transfer response plan or deployment of equipment.
