

**WAC 200-230-050 Site selection criteria—General.** Except for replacement trees, no major or minor works will be placed on state capitol grounds unless detailed subcampus plans for a given area have been approved. Subcampus plans have been fully implemented for the Olmsted portion of the west campus, also known as the state capitol historic district, Sylvester Park, and the Old Capitol Building block. These areas of the state capitol grounds are considered complete. Sub-campus plans are maintained by the department.

Because it was proposed prior to the effective date of section 140(3), chapter 149, Laws of 1997 (directing the adoption of this rule), and because the state legislature, through House Joint Memorial 1997-4000, clearly expressed support for a memorial to law enforcement officers on the state capitol campus, a major or minor work honoring law enforcement officers who have died in service to their communities and fellow Washington state citizens may be considered for placement on the west campus if it is designed in such a way as to minimally impact the current and planned uses of the site and to blend with and complement existing campus and landscape features, and the work meets all other applicable criteria of this chapter.

Works directly associated with the activities of a specific state agency shall be considered for installation in the facility that houses that agency's main or subordinate office.

No donated work shall be accepted by the state for placement on state capitol grounds until a suitable site for the work has been selected and approved.
