- WAC 296-24-73505 General requirements. (1) Surface conditions. You must ensure:
- (a) All places of employment, passageways, storerooms, service rooms, and walking-working surfaces are kept in a clean, orderly, and sanitary condition.

Note: Sanitary condition covers hazard exposures other than slips, trips, and falls. Examples of this include the prevention of illness/disease, and the prevention of fire and explosion resulting from combustible dust accumulations.

- (b) The floor of each workroom is maintained in a clean and, to the extent feasible, in a dry condition. When wet processes are used, drainage must be maintained and, to the extent feasible, dry standing places, such as false floors, platforms, and mats must be provided.
- (c) Walking-working surfaces are maintained free of hazards such as sharp or protruding objects, loose boards, corrosion, leaks, spills, snow, and ice.
- (2) You must ensure that each walking-working surface can support the maximum intended load for that surface.
- (3) You must provide, and ensure each employee uses, a safe means of access and egress to and from walking-working surfaces.
  - (4) Inspection, maintenance, and repair. You must ensure:
- (a) Walking-working surfaces are inspected, regularly and as necessary, and maintained in a safe condition.
- (b) Hazardous conditions on walking-working surfaces are corrected or repaired before an employee uses the walking-working surface again. If the correction or repair cannot be made immediately, the hazard must be guarded to prevent employees from using the walking-working surface until the hazard is corrected or repaired.
- (c) When any correction or repair involves the structural integrity of the walking-working surface, a qualified person performs or supervises the correction or repair.
