WAC 296-806-42058 Use speed controls for roller and wheel conveyors. (1) You must avoid safety hazards created by unit or package speeds by one of the following methods:

- (a) Limiting the length of the sloped run.
- (b) Using speed retarders or brakes.
- (c) Other means of providing speed control.
- (2) You must make sure rollers and wheels are free running to prevent locked wheels from steering or pulling materials to one side or off the conveyor.
