- WAC 388-97-1340 Influenza and pneumococcal immunizations. (1) The nursing home shall provide residents access on-site or make available elsewhere, the ability to obtain the influenza virus immunization on an annual basis.
- (2) Upon admission, the nursing home shall inform residents or the resident's representative, verbally and in writing, of the benefits of receiving the influenza virus immunization and the pneumococcal disease immunization.
- (3) Nursing homes who rely exclusively upon treatment by nonmedical religious healing methods, including prayer, are exempt from the above rules.

[Statutory Authority: Chapters 18.51 and 74.42 RCW and 42 C.F.R. 489.52. WSR 08-20-062, § 388-97-1340, filed 9/24/08, effective 11/1/08.]
