- WAC 388-112A-0120 What documentation is required for a long-term care worker to apply for the home care aide certification or recertification? (1) Successful completion of the 70-hour home care aide basic training, the two hours of orientation, and the three hours of safety training (referred to collectively as the 75-hours of training) must be documented on a DSHS 75-hour training certificate by an approved training entity verifying that a total of 75 hours of approved training have occurred.
- (2) An approved training entity issuing and signing a DSHS 75-hour training certificate must verify that the long-term care worker has the certificates required documenting two hours of DSHS-approved orientation, three hours of DSHS-approved safety training, and the 70-hour long-term care worker basic training, as described in this chapter. When applying to the department of health for home care aide certification, the long-term care worker may only submit a 75-hour training certificate that has been issued by the department or the training partnership.
- (3) For annual home care aide recertification, successful completion of 12 hours of DSHS approved continuing education training must be documented on a certificate(s) or transcript(s) issued by a department approved training entity.
- (4) The long-term care worker, certified home care aide, and employer must retain any 12-hour continuing education training certificates, transcripts, or other approved proof of completion for as long as the long-term care worker is employed.
