- WAC 388-835-0495 What is "minor equipment"? (1) Minor equipment includes items such as wastebaskets, bedpans, syringes, catheters, silverware, mops, and buckets.
  - (2) Minor equipment is generally characterized as:
- (a) Not occupying a fixed location and is used by a variety of departments;
  - (b) Small in size and unit cost;
  - (c) Subject to inventory control;
  - (d) A fairly large number of items are in use; and
  - (e) Possessing a useful life of one to three years.
- (3) If properly capitalized (see WAC 388-835-0230), minor equipment is depreciated. If not properly capitalized, minor equipment is expensed when acquired.
