

STATE OF WASHINGTON  
DEPARTMENT OF AGRICULTURE  
OLYMPIA

ORDER NO. 1041

(Supersedes Order No. 980)

Effective March 20, 1967

REGULATIONS PERTAINING TO BLOSSOMING ALFALFA, CLOVER, AND MINT

I, Donald W. Moos, Director of Agriculture, by virtue of the authority vested in me under Chapter 17.21 RCW, after due notice as provided under Chapters 34.04 and 42.32 RCW, and a public hearing held in Walla Walla on December 13, 1966, do hereby promulgate the following regulations relating to the use and application of restricted use pesticides on blossoming alfalfa, clover, and mint.

REGULATION 1. DEFINITION. The term "blossoming alfalfa or clover" as used in this order shall be when there are five or more blooms per square yard on the average in a given field: PROVIDED, That following the first cutting the bloom count shall be taken only on the current crop. For the purpose of this regulation, a "bloom" is defined as any clover head or alfalfa raceme containing one or more open flowers.

REGULATION 2. RESTRICTED USE PESTICIDES. The following agricultural pesticides are by this order declared to be restricted use pesticides in all counties of the State of Washington: Abate, Aldrin, Banol, Baytex, BHC (Benzene Hexachloride), Bidrin, Bomyl, Chlordane, Diazinon, Dibrom, Dieldrin, Dilan, Dimethoate (Cygon), Di-Syston, DDT, Delnav, Demeton (Systox), Dylox, Endrin, EPN, Ethion, Ethyl-Methyl Guthion, Guthion, Heptachlor, Imidan, Lindane, Malathion, Menazon, Metacide, Metasystox R, Methoxychlor, Methyl Parathion, Methyl Trithion, NPD, Parathion, Perthane, Phorate, Phosdrin, Phosphamidon, Phostex, TDE (Rhothane or DDD), TEPP, Thiocron, Thiodan, Toxaphene, Trithion, Vapona, and Zectran.

REGULATION 3. AREA UNDER ORDER. All counties of the State of Washington.

REGULATION 4. The use or application of the following listed pesticides, or any formulation thereof (except where

formulation is specified) shall be prohibited on blossoming alfalfa and clover crops.

- |                                  |                          |
|----------------------------------|--------------------------|
| (a) Aldrin                       | (o) Imidan               |
| (b) Banol                        | (p) Lindane              |
| (c) Baytex (Fenthion)            | (q) Malathion (dust)     |
| (d) BHC (Benzene Hexachloride)   | (r) Metacide             |
| (e) Bidrin                       | (s) Methyl Parathion     |
| (f) Bomyl                        | (t) Methyl Trithion      |
| (g) Chlordane                    | (u) Parathion            |
| (h) Diazinon                     | (v) Phosdrin (Mevinphos) |
| (i) Dibrom (Naled) (dust)        | (dust)                   |
| (j) Dimethoate (Cygon)           | (w) Phosphamidon         |
| (k) EPN                          | (x) Vapona (DDVP)        |
| (l) Ethyl-Methyl Guthion         | (Dichlorvos)             |
| (m) Guthion                      | (y) Zectran              |
| (n) Heptachlor (except granular) |                          |

REGULATION 5. The use or application of the following listed pesticides or any formulation thereof on blossoming alfalfa and clover crops is restricted to applications only within the period beginning at two hours prior to sunset and ending at two and one-half hours after sunrise the following morning: PROVIDED, That Endrin, Abate, and DDT plus Toxaphene may only be applied to blossoming clover crops pursuant to this regulation and their application to blossoming alfalfa shall be made pursuant to Regulation 7.

- |                                       |                                   |
|---------------------------------------|-----------------------------------|
| (a) Abate                             | (n) Metasystox R (Methyl Demeton) |
| (b) DDT                               | (o) Methoxychlor                  |
| (c) Delnav                            | (p) NPD                           |
| (d) Demeton (Systox)                  | (q) Perthane                      |
| (e) Dibrom (Emulsifiable Concentrate) | (r) Phorate (Thimet-Granular)     |
| (f) Dieldrin (Granular)               | (s) Phosdrin (Mevinphos)(Liquid)  |
| (g) Dilan                             | (t) Phostex                       |
| (h) Di-Syston                         | (u) TDE (Rhothane or DDD)         |
| (i) Dylox (Trichlorphon)              | (v) TEPP                          |
| (j) Endrin                            | (w) Thiocron                      |
| (k) Ethion                            | (x) Thiodan (Endosulfan)          |
| (l) Heptachlor (Granular)             | (y) Toxaphene                     |
| (m) Menazon                           | (z) Trithion (Carbopenothion)     |

REGULATION 6. The use or application of the pesticides known as Dibrom (Naled) (wettable powder), Malathion, and Phorate in emulsifiable, liquid, or wettable powder formulations applied as sprays on blossoming alfalfa or clover crops is restricted to applications only within the period beginning at two hours prior to sunset and ending at midnight of the same day.

REGULATION 7. The use or application of the pesticides Endrin, Abate, and DDT plus Toxaphene in either spray or dust formulations applied on blossoming alfalfa is restricted to applications only within the period beginning at two hours prior to sunset and ending at midnight of the same day.

REGULATION 8. The use or application of the pesticides known as Dieldrin and Sevin (Carbaryl) in either spray or dust formulations on alfalfa and clover crops is permissible only if applied 7 days or more prior to blossoming.

REGULATION 9. The use or application of the pesticides known as Malathion, Phosdrin (Mevinphos), and TEPP on blossoming mint crops is restricted to applications only within the period beginning at two hours prior to sunset and ending at two and one-half hours after sunrise: PROVIDED, That this time restriction shall apply to TEPP only if the Federal registration allowing the use of Kelthane on mint is reinstated.

REGULATION 10. The use or application of restricted use insecticides listed in Regulation 5, on blossoming alfalfa in Walla Walla County is restricted to applications only within the period beginning at sunset and ending at 2:00 a.m. the following morning.

For the purpose of this order, the time of sunrise and sunset will be that of the official tables, U. S. Weather Bureau, Yakima, Washington.

REGULATION 11. Aircraft carrying restricted use pesticides are prohibited from turning and/or low flying over cities, towns, or residences belonging to any person other than the owner of the property being treated, EXCEPT by permission of the person whose residence is involved.

REGULATION 12. An area North of Harrah and White Swan to the Ahtanum Ridge described as follows:

All irrigated lands lying within an area starting at the SW corner of Sec. 29, T11N, R17E; thence east to and along the Bench Road to the Stephenson Road; thence north one mile to the Progressive Road; thence east two miles along the Progressive Road to the Barkes Road; thence north two miles to the West Wapato Road; thence east 5 miles to the North Harrah Road; thence north one mile to the Wright Road; thence east 1/2 mile; thence north four miles to the summit of the Ahtanum Ridge.

RESTRICTIONS: The use or application of those insecticides listed in Regulation 5, on blossoming mint, is restricted to applications only within the period beginning at two hours prior to sunset and ending at two and one-half hours after sunrise the following morning.

I hereby certify that the foregoing is a true and correct copy of the regulations promulgated by the Department of Agriculture.

DONALD W. MOOS  
Director of Agriculture  
State of Washington
