STATE OF WASHINGTON DEPARTMENT OF MOTOR VEHICLES
PROFESSIONAL LICENSING DIVISION

ADMINISTRATIVE ORDER NO. PL 113

Pursuant to Notice No. 3079 filed with the Code Reviser July 2, 1971, after appropriate notice being given the news media and other interested persons, a public hearing was held at the regular meeting of the Board on July 23, 1971, in Olympia, Washington. All comments were made by representatives of the profession and members of the public as well as members of the Board concerning the proposed change. The Board determined to adopt the rule amending former WAC 196-24-050 in the form attached hereto.

I, F. ROBERT BERGSETH, Chairman of the Washington State Board of Registration for Professional Engineers and Land Surveyors, having been authorized by resolution of the Board to make and execute this order adopting the rule annexed hereto do hereby execute this order adopting said rule, and direct that after a copy be placed in the file maintained by the Division of Professional Licensing, Department of Motor Vehicles, and a copy be retained in the Board's files, that the appropriate number of copies be forwarded to the Code Reviser for filing.

DATED this 30th day of July, 1971.

F. ROBERT BERGSETH, Chairman
Washington State Board of
Registration for Professional
Engineers and Land Surveyors

WAC 196-24-050 EXAMINATIONS. (1) The branches in which certificates are presently issued are: Aeronautical, agricultural, ceramic, chemical, civil, electrical, industrial, logging, mechanical, metallurgical, mining, naval architecture and marine engineering, certificates on this basis will also be issued in land surveying. The branches of hydraulic, sanitary and structural engineering are considered to be specialized branches. An applicant for any of these is required to hold a certificate in Washington, in one of the regular twelve branches named above, to be eligible to sit for an examination in any one of the specialized branches.

(2) Applicants for certification by reciprocity from states, territories, districts or countries who have been issued certificates without examination or in instances where such governmental body does not grant certificates to regularly qualified registrants of Washington will be required to sit for an examination to test the skill and knowledge of the applicant.

(3) The examination will be given in the branch chosen by the applicant from the list of regular branches given by this board.

(4) Such examinations are given after the board has approved the applicant's request and usually before one or more members of the board. These arrangements are set on dates mutually convenient to the applicant and the board.

(5) In cases where an applicant is issued a certificate by his governmental agency not included in the list of regular branches ((1) of this section) the board will examine such an applicant in one of these regular branches of his choice, presumably the one closest to his specialty.

(6) The land surveyors examination in Washington consists of two parts:

(a) First day--eight o'clock a.m. to five o'clock p.m. land surveying and legal questions.

(b) Second day--eight o'clock a.m. to five o'clock p.m. land surveying--practical applied surveying problems.

Applicants for land surveying by reciprocity, who have been qualified by examination, will be exempt from the second day test. All applicants are required to sit for rules and legal questions (first day).

(7) One branch only as professional engineer or land surveyor will be issued by reciprocity. Each added branch requires a new application. All added branches will be authorized by passing a regular examination, except applicants for structural engineering who may be granted registration without further examination provided they have successfully passed an examination equivalent to that given in the state of Washington, in a nation, state or territory which grants like reciprocity to Washington registrants.

(8) All examinations are given with open book unless otherwise specified by the board.
