Brief Summary of Bill

- Approves the local government infrastructure projects list adopted by the Public Works Board for the 2007 loan cycle. The list includes 19 projects totaling approximately \$71 million in loan requests.

Hearing Date: 1/16/07

Staff: Nona Snell (786-7153).

Background:

The Public Works Assistance Account (PWAA), commonly known as the Public Works Trust Fund, was created by the Legislature in 1985 to provide a source of loan funds to assist local governments and special purpose districts with infrastructure projects. The Public Works Board (Board), within the Department of Community, Trade, and Economic Development (CTED), is authorized to make low-interest or interest-free loans from the account to finance the repair, replacement, or improvement of the following public works systems: bridges, roads, water and sewage systems, and solid waste and recycling facilities. All local governments except port districts and school districts are eligible to receive loans. The account receives dedicated revenue from: utility and sales taxes on water, sewer service, and garbage collection; a portion of the real estate excise tax; and loan repayments. The PWAA appropriation is made in the capital budget, but the project list is submitted annually in separate legislation. The CTED received an appropriation of \$288.9 million from the Public Works Assistance Account in the 2005-07 Capital Budget. The funding is available for public works project loans in the 2006 and 2007 loan cycles. Each year, the Board is required to submit a list of public works projects to the Legislature for approval. The Legislature may remove projects from the list, but it may not add
