

# FINAL BILL REPORT

## 2SHB 2722

---

C 298 L 08

Synopsis as Enacted

**Brief Description:** Creating an advisory committee to address the achievement gap for African-American students.

**Sponsors:** By House Committee on Appropriations (originally sponsored by Representatives Pettigrew, Kenney, Morris, Sullivan, Hasegawa, Upthegrove, Loomis, Pedersen, Darneille, Conway, Hudgins, Quall, Ericks, Kagi and Ormsby).

**House Committee on Education**

**House Committee on Appropriations**

**Senate Committee on Early Learning & K-12 Education**

**Senate Committee on Ways & Means**

### **Background:**

Results for the 2007 high school Washington Assessment of Student Learning (WASL) show that 80.8 percent of 10th grade students met standard in reading, 83.9 percent met standard in writing, and 50.4 percent met standard in mathematics. However, there are disproportionate levels of achievement among groups of students. The gap in WASL scores between non-Asian minority students and white students in reading is approximately 20 percentage points. The gap in mathematics is between 20 and 30 percentage points. African-American high school students are lagging behind other student groups in both reading and mathematics WASL scores. Approximately 25 percent of African-American students drop out of school between 9th and 12th grade, compared to 17 percent of white students.

In 2006 the Black Education Strategy Roundtable (Roundtable), an informal advisory group convened by the Washington Commission on African American Affairs, held community forums and developed a set of recommendations for education policy makers which included:

- (1) a statewide strategic plan to close the racial opportunity and achievement gap;
- (2) a public-private partnership to fund and operate local family engagement and empowerment activities and capacity building institutes for families;
- (3) a public-private partnership for additional community-based supplemental education for Black youth; and
- (4) a funding and policy package to increase school funding and fundamentally redesign the school day, curriculum, and instructional practices to meet the needs and learning styles of students not meeting state standards.

The mission of the Center for the Improvement of Student Learning (CISL) is to serve as a clearinghouse for information, promising practices, and research that promotes and supports effective learning environments for all students, especially those in underserved

communities. Another aspect of the CISL's mandate is to promote and facilitate family, school, and community partnerships around the state. The CISL is housed within the Office of the Superintendent of Public Instruction.

**Summary:**

The CISL must convene an advisory committee to craft a strategic plan to address the achievement gap for African-American students. The advisory committee is comprised of 15 members, including educators, parents, and representatives of community-based organizations, the Washington Commission on African-American Affairs, and the Office of the Education Ombudsman. Five members each are appointed by the Speaker of the House and the President of the Senate, and the remaining members are appointed by the Superintendent of Public Instruction (SPI).

The duties of the advisory committee are to conduct a detailed analysis of the achievement gap for African-American students; examine the extent that current initiatives address the needs of African-American students; identify best practices and promising programs; develop a comprehensive plan with specific strategies, interventions, and funding to improve educational outcomes for African-American students; and develop performance improvement measures and benchmarks to monitor progress.

The Washington State Institute for Public Policy must assist the advisory committee in examining detailed data on achievement indicators and trends.

A final report is due December 1, 2008, to the SPI, the Governor, the State Board of Education, the P-20 Council, and the education committees of the Legislature.

Beginning in January 2010, the CISL reports annually on the implementation of strategies to address the achievement gap for African-American students and on the progress of improvement of education performance measures for African-American students.

**Votes on Final Passage:**

House	97	0	
Senate	48	0	(Senate amended)
House	94	0	(House concurred)

**Effective:** June 12, 2008
