Washington residents under the age of 18 are required to take a driver training class in order to obtain a driver's license, except under limited circumstances. Courses may be offered at both high schools and commercial driver training schools. The Superintendent of Public Instruction sets the basic course requirements for traffic safety education courses offered in high schools. The Driver's Instructors' Advisory Committee (Advisory Committee) is required to create a basic minimum curriculum for courses offered at commercial driver training schools. Both the Superintendent and the Advisory Committee are required to include, among other things, information in driver education courses on the effects of alcohol and drug use on motor vehicle

operators, the proper use of the left hand lane, and information on motorcycle awareness. The information on motorcycle awareness must be approved by the Motorcycle Safety Foundation.

In 1982, legislation passed requiring the Department of Licensing (DOL) to create a voluntary motorcycle operator training and education program to provide public awareness of motorcycle safety and to provide classroom and on-cycle training. The DOL may waive all or a portion of the motorcycle endorsement examination for people who satisfactorily complete the motorcycle operator training and education program. Persons taking the motorcycle safety education class offered by the DOL must pay no more than \$100 and persons under the age of 18 must pay no more than \$50.

Summary of Bill:

The \$5 special endorsement application fee is directed to the Motorcycle Safety Education Account. The maximum fee that may be charged to persons taking the motorcycle safety education class is increased from \$100 to \$125.

The information on motorcycle awareness required to be provided in driver training courses must be approved by the director of the Department of Licensing (DOL), rather than the Motorcycle Safety Foundation.

The requirement that the DOL motorcycle safety education class encourage the use of radio- or intercom-equipped helmets is removed.

Appropriation: None.
