Any of the actions under this section may be totally or partly stayed by the disciplining authority. Safeguarding the public's health and safety is the paramount responsibility of every disciplining authority ((and)). In determining what action is appropriate, the disciplining authority must consider the schedule adopted by the secretary in section 1 of this act. Where the schedule allows flexibility in determining the appropriate sanction, the disciplining authority must first consider what sanctions are necessary to protect or compensate the public. Only after such provisions have been made may the disciplining authority consider and include in the order requirements designed to rehabilitate the license holder or applicant. All costs associated with compliance with orders issued under this

section are the obligation of the license holder or applicant.

HB 1101 p. 4

The ((licensee)) license holder or applicant may enter into a stipulated disposition of charges that includes one or more of the sanctions of this section, but only after a statement of charges has been issued and the ((licensee)) license holder has been afforded the opportunity for a hearing and has elected on the record to forego such a hearing. The stipulation shall either contain one or more specific findings of unprofessional conduct or inability to practice, or a statement by the ((licensee)) license holder acknowledging that evidence is sufficient to justify one or more specified findings of unprofessional conduct or inability to practice. The stipulation entered into pursuant to this subsection shall be considered formal disciplinary action for all purposes.
