

**HB 2415 - DIGEST**

Recognizes the need to ensure the safety of the public while offenders are released into communities. To further the goal of ensuring public safety, the legislature intends to improve the monitoring of offenders on supervision and hold those who violate the conditions of supervision accountable for their actions. The legislature intends to increase the effectiveness of supervision of offenders on community custody through methods such as providing community corrections officers increased flexibility in determining sanctions for supervision violations and in searches of offenders on community custody with the goal of enhancing public safety and preventing future offenses and supervision violations.
