

HB 2609 - DIGEST

Facilitates the development of a collaborative infrastructure at the local, regional, and state level between systems that serve vulnerable youth in order to improve statewide high school graduation rates.

Changes the duties and composition of the work group established in RCW 28A.175.075.

Expands the quality education council's reporting requirements.

Requires additional information to be provided by the K-12 education data improvement system.
