HOUSE COMMITTEE ON HEALTH CARE & WELLNESS

Majority Report: Do pass as amended. Signed by 17 members: Representatives Cody, Chair; Jinkins, Vice Chair; Schmick, Ranking Minority Member; Hope, Assistant Ranking Minority Member; Angel, Clibborn, Green, Harris, Manweller, Moeller, Morrell, Riccelli, Rodne, Ross, Short, Tharinger and Van De Wege.

Staff: Jim Morishima (786-7191).

Background:

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.

A registered nurse is a person who performs acts requiring substantial specialized knowledge, judgment, and skill based on the principles of the biological, physiological, behavioral, and sociological sciences in several areas, including:

- the observation, assessment, diagnosis, care or counsel, and health teaching of individuals with illnesses, injuries, or disabilities, or in the maintenance of health or prevention of illness of others;
- the administration, supervision, delegation, and evaluation of nursing practice;
- the teaching of nursing; and
- the execution of a medical regimen as prescribed by a physician, dentist, osteopathic physician, podiatric physician, physician assistant, osteopathic physician assistant, or advanced registered nurse practitioner (or as directed by a licensed midwife within his or her scope of practice).

Pursuant to rules adopted by the Nursing Care Quality Assurance Commission (NCQAC), registered nurses must complete at least 531 hours of active practice and at least 45 clock hours of continuing education every three years. Under recent guidance issued by the NCQAC, time spent pursuing additional education can count as practice hours. The guidance lists the following as examples of degree programs: Associate Degree in Nursing, Bachelor of Science in Nursing, Master of Science in Nursing, Master of Science, Master in Public Health, Doctor in Nursing Practice, Doctor of Philosophy, Doctor in Education, and Juris Doctor.

Summary of Amended Bill:

The NCQAC must adopt rules on continuing competency. The rules must include exemptions from the continuing competency requirements for registered nurses seeking advanced nursing degrees. The exemption for registered nurses does not prohibit the NCQAC from providing additional exemptions for nurses enrolled in advanced education programs.

Appropriation: None.

Fiscal Note: Available.

Effective Date of Amended Bill: The bill takes effect 90 days after adjournment of the session in which the bill is passed.

Staff Summary of Public Testimony:

(In support) None.

(With concerns) This bill should be amended to be consistent with the NCQAC rules on the subject. In 2011 the NCQAC adopted continuing competency requirements. Currently, a person may satisfy the active practice requirements through advanced education. The exemption in this bill is narrower than the one provided by the NCQAC in that it only applies to registered nurses and does not recognize other types of advanced education.

(Opposed) None.

Persons Testifying: Paula Meyer, Nursing Care Quality Assurance Commission; and Melissa Johnson, Washington State Nurses Association.

Persons Signed In To Testify But Not Testifying: None.
