1 AN ACT Relating to suicide prevention; amending 2012 c 181 s 1
2 (uncodified); reenacting and amending RCW 43.70.442; adding new
3 sections to chapter 43.70 RCW; creating a new section; and providing an
4 expiration date.

5 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

6 **Sec. 1.** 2012 c 181 s 1 (uncodified) is amended to read as follows:

7 (1) The legislature finds that:

8 (a) According to the centers for disease control and prevention:

9 (i) In 2008, more than thirty-six thousand people died by suicide
10 in the United States, making it the tenth leading cause of death
11 nationally.

12 (ii) During 2007-2008, an estimated five hundred sixty-nine
13 thousand people visited hospital emergency departments with self-
14 inflicted injuries in the United States, seventy percent of whom had
15 attempted suicide.

16 (iii) During 2008-2009, the average percentages of adults who
17 thought, planned, or attempted suicide in Washington were higher than
18 the national average.

1 (b) According to a national study, veterans face an elevated risk
2 of suicide as compared to the general population, more than twice the
3 risk among male veterans. Another study has indicated a positive
4 correlation between posttraumatic stress disorder and suicide.

5 (i) Washington state is home to more than sixty thousand men and
6 women who have deployed in support of the wars in Iraq and Afghanistan.

7 (ii) Research continues on how the effects of wartime service and
8 injuries, such as traumatic brain injury, posttraumatic stress
9 disorder, or other service-related conditions, may increase the number
10 of veterans who attempt suicide.

11 (iii) As more men and women separate from the military and
12 transition back into civilian life, community mental health providers
13 will become a vital resource to help these veterans and their families
14 deal with issues that may arise.

15 (c) Suicide has an enormous impact on the family and friends of the
16 victim as well as the community as a whole.

17 (d) Approximately ninety percent of people who die by suicide had
18 a diagnosable psychiatric disorder at the time of death, such as
19 depression. Most suicide victims exhibit warning signs or behaviors
20 prior to an attempt.

21 (e) Improved training and education in suicide assessment,
22 treatment, and management has been recommended by a variety of
23 organizations, including the United States department of health and
24 human services and the institute of medicine.

25 (2) It is therefore the intent of the legislature to help lower the
26 suicide rate in Washington by requiring certain health professionals to
27 complete training in suicide assessment, treatment, and management as
28 part of their continuing education, continuing competency, or
29 recertification requirements.

30 (3) The legislature does not intend to expand or limit the existing
31 scope of practice of any health professional affected by this act.

32 **Sec. 2.** RCW 43.70.442 and 2013 c 78 s 1 and 2013 c 73 s 6 are each

30 (b) (~~The board of occupational therapy practice~~) A disciplining
31 authority may exempt (~~an occupational therapy practitioner~~) a

25 section shall adopt any rules necessary to implement this section.
