

SB 5281-S.E - DIGEST

(AS OF SENATE 2ND READING 3/01/17)

Prohibits rules adopted by the state board of health, regarding the design, construction, installation, operation, and maintenance of on-site sewage systems with design flows of less than three thousand five hundred gallons per day, from requiring: (1) A use permit to be conditioned with a requirement for a monitoring contract between a private company and a private individual or property owner;

(2) Dedicated easements for the inspection, maintenance, or potential future expansion of an on-site sewage system; and

(3) Replacement of an existing on-site sewage system if a repair returns the system to its previously permitted or original functioning state.
