

SB 6357 - DIGEST

Authorizes the county auditor to seek a waiver from ballot box siting requirements.

Requires the waiver request to be submitted in any form and manner as the secretary of state may establish by rule.

Authorizes the secretary of state to request information regarding the request that may be helpful in determining whether to approve a waiver and must approve or disapprove the request within sixty days of receiving it.

Prohibits the secretary of state from issuing a waiver that would result in fewer than one ballot drop box per fifteen thousand registered voters in a county.
