By Representative Stokesbary

**NOT ADOPTED 02/27/2021**

1       On page 14, line 14, after "2035." insert "The analysis must also  
2 examine the anticipated cost impacts, through 2035, of the forecasted  
3 fuel price changes to persons that earn less than the state median  
4 income. Based on this analysis, the department must determine the  
5 amount per recipient, and the cost overall to the state, to establish  
6 a rebate program to offset the fuel cost increases to persons that  
7 earn less than the state median income, for each year through 2035."

EFFECT: Requires the 2022 independent analysis of the Clean Fuels Program on motor vehicle fuel prices to also examine the anticipated cost impacts of fuel price changes to persons earning less than the state median income. Requires the Department of Ecology to determine the amount per recipient, and overall cost to the state, of a rebate program to offset fuel cost increases for persons that earn less than the state median income.
