WAC 388-78A-2020 Definitions. **"Abandonment"** means action or inaction by a person with a duty of care for a vulnerable adult that leaves the vulnerable person without the means or ability to obtain necessary food, clothing, shelter, or health care.

"Abuse" means the willful action or inaction that inflicts injury, unreasonable confinement, intimidation, or punishment on a vulnerable adult. In instances of abuse of a vulnerable adult who is unable to express or demonstrate physical harm, pain, or mental anguish, the abuse is presumed to cause physical harm, pain, or mental anguish. Abuse includes sexual abuse, mental abuse, physical abuse, and personal exploitation of a vulnerable adult, and improper use of restraint against a vulnerable adult, which have the following meanings:

(1) **"Sexual abuse"** means any form of nonconsensual sexual conduct, including, but not limited to, unwanted or inappropriate touching, rape, sodomy, sexual coercion, sexually explicit photographing, and sexual harassment. (3) To promote quality of care through self-review without the fear of reprisal, and to enhance the objectivity of the review process, the department shall not require, and the long-term care ombuds program shall not request, disclosure of any quality assurance committee records or reports, unless the disclosure is related to the committee's compliance with this section, if:

However, if the assisted living facility offers the department documents generated by, or for, the quality assurance committee as evidence of compliance with assisted living facility requirements, the documents are protected as quality assurance committee documents when in the possession of the department.

(5) Good faith attempts by the committee to identify and correct quality deficiencies shall not be used as a basis for sanctions.

(6) Any records that are created for and collected and maintained by the quality assurance committee shall not be discoverable or admitted into evidence in a civil action brought against an assisted living facility.

(7) Notwithstanding any records created for the quality assurance committee, the facility shall fully set forth in the resident's records, available to the resident, the department, and others as permitted by law, the facts concerning any incident of injury or loss to the resident, the steps taken by the facility to address the resident's needs, and the resident outcome.

WAC 388-78A-2810 Criteria for increasing licensed bed capacity.

Before the licensed bed capacity in an assisted living facility may be increased, the assisted living facility must:

(1) Obtain construction review services' review and approval of the additional rooms or beds, and related auxiliary spaces, if the rooms were not previously reviewed and approved for the physical plant requirements at time of construction; and

(2) Ensure that each additional licensed bed or "stand-by" bed meets the assisted living licensing requirements under this chapter and chapter 388-110 WAC, when applicable.

(3) Before approving any increase in licensed bed capacity, the department will determine the facility's maximum facility capacity to ensure that any increase is consistent with this chapter and chapter 388-110 WAC, when applicable.

WAC 388-78A-2821 Design, construction review, and approval plans.

(1) Drawings and specifications for new construction must be prepared by, or under the direction of, an architect registered under chapter 18.08 RCW. The services of a consulting engineer registered under chapter 18.43 RCW may be used for the various branches of work where appropriate. The services of a registered engineer may be used

in lieu of the services of an architect if the scope of work is primarily engineering in nature.

(2) The assisted living facility will meet the following requirements:

(a) **Preconstruction.** Request and attend a presubmission conference for projects with a construction value of two hundred and fifty thousand dollars or more. The presubmission conference shall be scheduled to occur for the review of construction documents that are no less than fifty percent complete, or as coordinated with plan reviewer.

(b) **Construction document review.** Submit construction documents for proposed new construction to the department for review within ten days of submission to the local authorities. Compliance with these standards and regulations does not relieve the facility of the need to comply with applicable state and local building and zoning codes. The construction documents must include:

(i) A written functional program consistent with WAC 388-78A-2361 containing, but not limited to, the following:

(A) Information concerning services to be provided and the methods to be used;

(B) An interim life safety measures plan to ensure the health and safety of occupants during construction;

(C) An infection control risk assessment indicating appropriate infection control measures, keeping the surrounding area free of dust and fumes, and ensuring rooms or areas are well ventilated, unoccupied, and unavailable for use until free of volatile fumes and odors;

(D) An analysis of likely adverse impacts on current assisted living facility residents during construction and the facilities plans to eliminate or mitigate such adverse impacts including ensuring continuity of services;

(ii) Drawings and specifications to include coordinated architectural, mechanical, and electrical work. Each room, area, and item of fixed equipment and major movable equipment must be identified on all drawings to demonstrate that the required facilities for each function are provided;

(iii) Floor plan of the existing building showing the alterations and additions, and indicating location of any service or support areas;

(iv) Required paths of exit serving the alterations or additions; and

(v) Verification that the capacities and loads of infrastructure systems will accommodate the planned load.

(c) **Resubmittals.** The assisted living facility will respond in writing when the department requests additional or corrected construction documents;

(d) **Construction.** Comply with the following requirements during the construction phase:

(i) The assisted living facility will not begin construction until all of the following items are complete:

(A) Construction review services has approved construction documents or granted authorization to begin construction;

(B) The local jurisdictions have issued a building permit; and

(C) The construction review services will issue an "authorization to begin construction" when the construction documents have been conditionally approved.

(ii) Submit to the department for review any addenda or modifications to the construction documents.

(iii) Assure construction is completed in compliance with the final construction review services approved documents. Compliance with these standards and regulations does not relieve the facility from compliance with applicable state and local building and zoning codes. Where differences in interpretations occur, the facility will follow the most stringent requirement.

(vi) The assisted living facility will allow any necessary inspections for the verification of compliance with the construction documents, addenda, and modifications.

(e) **Project closeout.** The facility will not use any new or remodeled areas for resident use of licensed space until:

(i) The department has approved construction documents;

(ii) The local jurisdictions have completed all required inspections and approvals, when applicable or given approval to occupy; and

(iii) The facility notifies the department in writing when construction is completed and includes:

(A) Copy of the local jurisdiction's approval for occupancy;

(B) Copy of reduced floor plans; and

(C) A room schedule.

(1) If a person intends to convert a licensed nursing home building into a licensed assisted living facility, the building must meet all assisted living facility licensing requirements specified in this chapter and chapter 18.20 RCW unless the licensee has a contract with the department to provide enhanced adult residential care services in the assisted living facility per RCW 18.20.220.

(2) If the licensee provides contracted enhanced adult residential care services in the building converted from a licensed nursing home into a licensed assisted living facility, the assisted living facility licensing requirements for the physical structure are considered to be met if the most recent nursing home inspection report for the nursing home building demonstrates compliance, and compliance is maintained, with safety standards and fire regulations:

(a) As required by RCW 18.51.140; and

(b) Specified in the applicable building code, as required by RCW 18.51.145, including any waivers that may have been granted, except that the licensee must ensure the building meets the licensed assisted living facility standards, or their functional equivalency, for:

(i) Resident to bathing fixture ratio required per WAC 388-78A-3030;

(ii) Resident to toilet ratio required per WAC 388-78A-3030;

(iii) A call system required per WAC 388-78A-2930;

(iv) Resident room door closures; and

(v) Resident room windows required per WAC 388-78A-3010.

WAC 388-78A-2851 Applicability requirements for physical plant.

(1) The purpose of physical environment requirements is to provide for a safe and effective resident care environment in the buildings or portions of buildings licensed as assisted living facilities and used to provide assisted living services. This section applies to new construction which includes:
