- WAC 296-305-06001 Fire service equipment. (1) All portable equipment must be inspected routinely to ensure that it is ready for use.
 - (2) Any defective equipment must be removed from service.
- (3) Nylon utility straps or straps of equivalent strength should be used instead of hose belts. The utility strap must be of one-inch nylon, or equivalent belting, with a four-inch overlap and sewn with polyester thread and must measure at least 102 inches on the outside circumference.
- (4) The load capacity must be stenciled on each portable jack and the load capacity must not be exceeded.
- (5) The instruction plate on portable jacks must be maintained in a legible condition.
- (6) Portable powered cut-off saws (rescue saws) must be used in accordance with the manufacturer's recommendations.

Exception:

- The lower blade guard described in WAC 296-807-12005 is not required on hand-held portable powered cut-off saws used by fire/rescue personnel for rescue procedures and/or roof ventilation for smoke removal, provided the operator is wearing appropriate eye, face, head, and body protection as specified in WAC 296-305-02011 through 296-305-02012. This exception also applies to qualified persons (e.g., instructors) wearing personal protective equipment as described herein to instruct personnel in safe roof ventilation/rescue techniques.
- (7) When not in use, the cutting teeth on a chain saw must be covered either by an old section of hose, a wooden scabbard, or an equivalent method.
- (8) All axes worn by employees must be provided with a scabbard to guard against injury from the blade and pick of the axe.
- (9) The guards on smoke ejectors, as supplied by the manufacturer, must not be removed and the operator of the ejector must wear gloves.
- (10) Acetylene cylinders. Handling, storage and utilization of acetylene in cylinders must be in accordance with the Compressed Gas Association Pamphlet G-1 2003 edition.
- (11) Powder activated life-line guns and accessories must be stored in a box or container equipped with a lid or cover.
 - (a) The box must be kept closed when not in use.
 - (b) A loaded life-line gun must not be placed in the storage box.
- (c) Instruction books, cleaning kits and hand tools needed for maintenance or breakdown purposes must be kept in the life-line gun storage box.
- (d) The words "powder activated tool" must be conspicuously printed on the top of the storage box.
- (12) Abrasive blades in storage, not on a saw, must be protected from contact with water, liquids, petroleum products and their fumes.
- (13) Fiber rope that has been subjected to injurious chemicals or excessive heat must not be used for load carrying purposes.
